THE CHEAPEST YET, ... The NEWS Job Office is ow printing bill-heads in the best style and on

GOOD PASSAGE .- The British steamship Pio neer, which left this port for Liverpool on the 20th t October, arrived there on the 16th of Novem er, making the run in eighteen days, which is ; very time passage for this season of the year.

Hibernian Hall. The troupe has an ancient and

velt carned reputation for excellence in the vari ous elements which make up the style of entertain ment known as burnt-cork opera. As concerts of this character never fail to draw good houses in go early in order to secure good seats. OFF FOR COLUMBIA!-The hegira of Radical office-holders and office-seekers, who dance at tendance upon our model Legislature at Colum bia, has begun, and there is a fair prospect that by to-night few of the tribe will remain in Charles-ton. The multitudinous officials who rejoice in

the name of D. T. Corbin have all departed, to return no doubt, at the close of the session, in multiplied numbers and with augmented civic The Wilmington Journal says: "We have before referred to the probable short crop of cotton in this State, and we regret extremely to learn, from a source in which we have confidence, that the erop of Robeson County will only yield about

one-half of what it was pitched for. The late cotton is opening badly, and the rot is very per-

ceptible, and adds greatly to the shortness and

quality of the crop.' THE WORKINGMEN'S ASSOCIATION .- The Committees of three from each of the trades who were appointed by the chairman (Mr. James M. Rabb.) met on Saturday evening, at the South Carolina Hall, and presented a draft of the constitution, which was accepted. The meeting was private, but, we are sincerely glad to hear, that the ass ciation has purged itself of the political element that was manipulating it. A public meeting of the workingmen will be called at an early day.

A MOBEL ESTABLISHMENT. -We invite the attention of the friends of THE NEWS in the city and oughout the State to the excellent facilities which our office enjoys for the prompt execution of all kinds of Book and Job Printing. Fully provided with new type and machinery of the latest and most approved pattern, and having a large and carefully selected stock of cards, envelopes and papers of all qualities, THE NEWS Job Office is now prepared to fill orders for every description of plant and ornamental printing fisthe very best manner, and at rates at least as low as any other establishment in the Southern States. Call at THE NEWS building (up-stairs) and examine our seale of prices and specimens of our work.

STEVEBORES' PROTECTIVE UNION .- The stevedores of this city, following the example set by the longshoremen, have formed a union to protect their interests and those of the shippers They have pledged themselves to the latter that the work shall be done thoroughly and expeditiously, and without the aid of men who have wannab a made themselves obnoxious by their dictatorial Barnwell. proceedings. The shippers, we are told, will ac cord the new organization their entire support The first meeting of this union was held on Friday evening, and was presided over by Captain adopted, and arrangements made to perfect the workings of the Union. A special meeting will Ladder Company, No. 1, in Queen street.

THE ACADEMY OF MUSIC.-Mr. John T. Ford, Newcomb and wife, N. D. Roberts, Harry theatre, arrived in the city on Saturday, and expressed his unqualified gratification at the arrangement, capacity and aderument of the new temple of music and the drama to be inaugurated ander his auspices. Mr. Ford assures us that he means at all hazards to maintain the social character of the Academy, both before and behind the lootlights. The entertainments that he intends to present will, in all cases, be the very best of their class, and at once pleasing and refined. The Chapman Sisters, the stars who are to open the Academy, have won golden opinions where-ever they have appeared, and we are sure that our people will be delighted by their sparkling and vivacious performances.

Mr. Ford has secured for the opening night a prologue specially written for the occasion by Wm. Gilmore Simms, Esq. The Snishing touches are now being put to the ornamental work of the Academy, and by the middle of this week it is ex-pected that the structure will be substantially complete. The gorgeous "sunlight" which is to illuminate the interior has been elevated to its position in the dome, and the complicated details of the scenic arrangements are rapidly approach

Our friends in the country who may chance to visit Charleston in December, or in fact any time this winter, need have no fear that first class amusements will be lacking to make their evenings in the city pass pleasantly away.

THE MASONIC FAIR. Saturday night ended the first week of the Fair, and the hall having been previously engaged by the minstrels, the managers were reluctantly compelled to suspend operations. A number of articles are still on band, and the chances are not all taken in several of the most important raffles. It is, therefore, proposed to obtain the lower hall and exhibit the old goods on one large stand. It would not be difficult to secure takers for the remaining chances, and the articles still on hand would command a ready sale when offered at the low rates proposed. The Fair has been a complete success, and the receipts will fully equal the expectations of the Masonic fraternity. The fine silver service, of which mention was made in our last issue, was won by Orange Lodge, which polled 204 votes, the remainder of the ballot being: Washington 145; Union Kilwinning 99-(being one for each member;) Friendship 28, and a number scattering. e set of harness put up by Strict Observance Lodge was won by Dr. J. Somers Buist. A cooking stove presented by Mr. Q. A. Damon was won by Mr. W. E. Hughes. The handsome garnet get was not radled, and each table has some choice articles remaining that will be raftled as soon as the chances are all taken.

It will be seen by a notice in another column that the Committee on Accounts will meet at Hitternian Hall to-morrow afternoon, when all claims should be presented properly certified, and when all persons engaged in the Pair are re quested to hand in their accounts. The president of the Pair Association particularly requests all persons who may have articles remaining at the hall to remove them as early as possible this (Monday) morning.

CRUMBS.—It was currently reported on the dreets Saturday that the Grand Jury had found a true bill against ex-Alderman T. J. Mackey, for assault and battery with intent to kill.

A meeting of the Union Republican party will

be held this evening at the Military Hall. A grand pow-wow is expected. The new flooring in the upper wards market is

nearly completed.

The investigation into the East Bay fire failed to discover the cause. That of the fire in Calhoun street is still pending, though the testimony elicit ed thus far induces the belief that it was the act of an incendiary.

A SERIOUS MISHAP .-- Some excitement was aused on Meeting street on Saturday morning by the appearance of fissures in the front of the new building occupied by Messrs, Cameron Barkley & Co., at the corner of Meeting and Cumberland streets, and for a time there were fears that the wall would fall. The facts of the case which our reporter has been at some trouble to scertain, were as follows: The owners of the building wishing to deepen their cellar, with a view to meet the wants of their growing business, employed Mr. Culleton, a contractor, to do the work. He had made very fair progress in what he had undertaken, the side walls having been successfully underpinned by brick wor me three feet below their original depth, and the sandy soil removed from the interior of the now printing bill-heads in the best style and on fine paper, at \$250 per thousand. Merehants, think to the front, however, the fatal mistake was made of andermining the entire width of the structure, leaving the immense mass of masonry of the front wall hanging from the tw corners. The front, which is about forty feet wide, stood this fearful test for some time, and then gradually yielded, the masoury below th iron sills sinking into the cavity below. presented the singular spectacle of the powerfu iron columns, designed by the architect to support the wall, themselves supported solely by the bone of brick and mortar above them, acting like an immense arch. As soon as this state of affairs ecame apparent a large crowd collected around this character never fall to draw good houses in Charleston, we have only to advise our readers to the distressed owner; for Mr. John II. Devereux at the Academy of Music. With characteristic promptitude that gentleman speedily had a gang workmen at hand, with a quantity of lumber of all sizes, to remedy, as far as possible, the accident. He soon succeeded in gripping, by a system of shoreing, the entire front, not allowing another brick to fall, thus affording the owners an oppotunity of removing their valuable stock from the part of the building sadangered. We presume that the operations necessary to repair the dam-age will be continued to-day, Messrs. Cameron, Barkley & Co. meantime giving notice that the business of their establishment will be conducted through the rear entrance.
